2,600

## SERVICES

### IT Modernization

Put customers ahead of the curve with the latest technological advancements.

### Data

Maximize the value of data & empower evidence-based decision-making.

### Cyber Security

Develop tailored strategies and solutions that keep our customers secure.

### Digital Services

Build citizen-centric, interconnected products and services.

### Management & Mission Services

Connect strategy and goals with people, processes, technology, and data.

## Empowering federal partners to meet the challenges of today while building the government of tomorrow.

Government services impact everyone from children to senior citizens. However, in today's increasingly connected world, to effectively deliver these services federal agencies must tackle an evergrowing number of technical, security, and communications challenges that didn't exist 20, 10, or even five years ago.

### That's where GovCIO comes in.

Combining our extensive federal experience with the latest innovations in IT and disruptive approaches, our experts develop comprehensive solutions for the most pressing challenges government agencies face today.

From the U.S. military to Health and Human Services, we have an impressive track record of helping our customers optimize how they operate and prepare for current and future demands.

We are committed to transforming government IT— let us show you what we can do for you!

## National Security Sector (NSS)

Every day, GovCIO helps law enforcement, defense agencies, and military branches combat terrorism, respond to natural disasters, and protect the nation.

Our security experts, pulled from the senior ranks of the law enforcement, counterterrorism, defense, and military communities, combine proactive strategies and pioneering technology to streamline, connect, and secure the most complex and critical of teams and services so we stay ahead of domestic and foreign threats and keep the nation safe.

No matter what your national security mission is, we have resources that can blend state-of-the-art technology with the needed context and understanding to create solutions that empower your specific mission.

### SAMPLE CUSTOMERS

- FBI
- Navy
- SOCOM
- Air Force
- Army
- DHS

## BETTER TOGETHER

### GovCIO & GovCIO Media & Research

GovCIO has a consulting arm and an independent subsidiary — GovCIO Media & Research — which serves as our unbiased outlet for the latest news and insights in Federal IT. Coming from different angles, GovCIO and GovCIO M&R work together, leveraging each operations' expertise, to further government IT transformation.

## WE ARE TRANSFORMERS

We're changing the face of government IT — and building a culture that fuels this mission, starting with our people.

Great People Do Great Things. We pride ourselves on our ability to recruit the best of the best in the IT space. But it takes more than technical expertise to be a GovCIO "Transformer". We look for passion, a positive attitude, emotional intelligence, and high integrity in all our prospective employees.

It's simple — great people do great things for our customers, our culture, and our ability to attract other great people.
