Cyber Operations

At the forefront of cybersecurity, GovCIO has extensive experience safeguarding global cyber interests.

As the initial line of defense, we undertake the design, construction, and deployment of valuable assets for the highest levels of government. Leveraging our unparalleled capabilities, we deliver a comprehensive defense strategy, sustainable threat protection, and a mature security posture.

14 NATIONS

Building Security Operations Centers (SOC) with Partner Nations

We partner with 14 nations to conduct and establish concurrent multi-nation cyber resiliency. GovCIO employs continuous operations to detect, reduce, and respond to cyber attacks on critical defense infrastructure systems and counter intrusions in cyber space.

Supporting the Defense Counterintelligence and Security Agency (DCSA)

Our role is to oversee insider threat management for the DoD Insider Threat Management and Analysis Center (DITMAC) System of Systems (DSoS) and provide cybersecurity engineering support for the National Background Investigation System (NBIS).

Providing Full Spectrum Cyber Operations Training and Support for the 67th Cyberspace Wing

Our teams oversee and create solutions for the three divisions of the 67th Cyberspace Wing, which comprise offensive operations, defensive operations, and intelligence support for cyberspace activities.

GovCIO

GovCIO is at the Forefront of Cyberspace

- Cyber Intelligence and Integration
- Cyber Exercises
- Combat Capability Assessments
- DevSecOps Transformation
- Analytics Development supporting the Air Force's
- Big Data Platform
- Operational Preparation for the Cyber Battlefield
- Engineering SOCs for multiple DoD organizations
- Penetration Testing
- Security Incident & Event Management (SIEM)
- Mobile Cyber Incident Response Teams
- Cyber Operations Training
- Network Architecture and Modernization
- Network Enterprise Surveys
- Advanced Threat Detection
- Security Orchestration & Response (SOAR)

Cyber Training

Our advanced operational prep has transformed the cyber defense landscape, fortifying our country's cyber defenses and leaving our adversaries far behind. Your success is our top priority, and we are fully committed to meticulously addressing every aspect of your training and curriculum requirements. With a deep expertise in Instructional Systems Design (ISD) models, we rigorously uphold training compliance across our comprehensive suite of training solutions, encompassing cybersecurity awareness, compliance, incident response, technical training, secure coding, security architecture, and mobile security. We provide needs analysis, Learning Management Systems, Content Delivery Systems, staff training, course and curriculum development, and functional and organizational consulting services worldwide. Rest assured, we have the tools and the know-how to empower you to achieve excellence.

Customer Stories

Providing SOCOM with Dynamic Telecom Services
GovCIO enables U.S. Special Operations Command (SOCOM) to meet today's demands while preparing for tomorrow's challenges. **Scan code to learn more.**
