

MAVERICK

Overview

Purpose: Provide the National Security Innovation Network (NSIN) and its mission partners with services that support DoD-wide critical technology initiatives by developing, sustaining, and advancing IT infrastructure.

Scope: Provide a broad range of IT services and solutions supporting the National Security Innovation Network (NSIN) and its mission partners. In addition, TO covers various projects consisting of disparate mission sets across all relevant DoD and intelligence domains (i.e., land, sea, air, space, near space, and cyberspace).

Project Focus Areas: C6ISR, Advanced Training, Autonomous Technology and Artificial Intelligence, Security Cooperation, Automated Logistics, Health IT and Business Systems, Cyber Operations

Our Partners

Various companies providing a diverse/purpose built team of both large and small businesses that can be tailored to each mission partners requirements.

Fast Facts
